From August 31 to September 1, 2019, the 2019 National Ergonomics Congress and Academic Conference of the Chinese Society of Ergonomics was successfully held in Xi’an, China. The conference was hosted by the Chinese Ergonomics Society, the Tsinghua University Master of Engineering Management Education Center, and Beijing Jinfa Technology Co., Ltd. Co-organizers were Xi’an University of Science and Technology and Shenzhen Miqiao Technology Co., Ltd. The chairman of the meeting was Prof. Zhang Wei, Chairman of the Chinese Ergonomics Society. Participating in the meeting were more than 400 experts, scholars, and graduate students from international and regional ergonomics/human factors organizations such as Taiwan and Hong Kong Ergonomics Associations, IEA, ACED, and BRICSPlus.

The theme of this conference was “Proceed from the past, continue to be glorious, and promote ergonomic innovation and development.” It aimed to provide a platform for open exchange of scientific research, teaching, production, application and management in the field of ergonomics in China, and to discuss subject hotspots, questions, and exchanges on the development and direction of the disciplines. The conference received 90 papers and abstracts, and 54 full-text articles. The conference was held in a main venue and 10 branch venues. A total of 12 invited conference reports and 89 branch venue reports were organized. The scale of the conference reached a record high.

2019 coincides with the 30th anniversary of the establishment of the Chinese Ergonomics Society. During the meeting, the 30th anniversary of the establishment of the society and commendation activities were also held.

On the morning of August 31, Zhang Wei, the chairman of the Society, presided over the opening ceremony and the second meeting of the Seventh National Member Congress.
Chairman Zhang Wei presided over the opening ceremony of the meeting and delivered a speech as the five vice-chairmen looked on.

Chairman Zhang Wei introduced the participants from the society's various chapters, the Hong Kong and Taiwan Associations, and international guests. He hoped that in the current situation of the country's vigorous promotion of an innovation-driven development strategy, everyone will work together to promote ergonomics education, research, and application for development in China. The Society will continue to promote the construction of service functions, cooperation, and exchanges within the Society and internationally and regionally, so that ergonomics can exert a greater influence in the creation of a better life.

After the opening ceremony, the second meeting of the Seventh National Member Congress was held. First, the Secretary-General of the Society Yu Ruifeng provided an explanation of the amendments to the association's constitution; then, the members of the Society voted to approve the amendments of the Association's constitution. The revised charter will be reported to the Ministry of Civil Affairs for the record.

During the 30th anniversary event of the Society, Professor Zhang Wei, as well as the Chairman of the Taiwan Human Factors Engineering Society Wu Xinjie, Professor Wang Mingyang, and Chairman of the Hong Kong Ergonomics Society Dr. Calvin Or gave speeches. They reviewed the past of human factors and ergonomics development and exchanges across the three sides of the strait, and looked forward to a bright future. In his speech, Prof. Jose Orlando Gomes, Vice President and Treasurer of the IEA, congratulated the Chinese Ergonomics Society on its 30th anniversary and its development achievements, and congratulated the Society for assisting the IEA in advancing resource development, awards, and regional ergonomics organizations. He also expressed gratitude for outstanding contributions in cooperation, and officially released to the world two international awards, namely The IEA / Tsinghua HFE Education Award and The IEA / Kingfar HFE Research, established by Tsinghua University and Beijing Jinfa Technology Co., Ltd. in conjunction with IEA. Award. Next, Chairman Zhang Wei read the list of winners of the Chinese Ergonomics Lifetime Achievement Award and the Outstanding Contribution Award of the Chinese Ergonomics Society.
nominated by the Secretariat of the Society and approved by the Seventh Council 2019 Plenary Session, and he described the contribution of awardees to ergonomics and the society. Professor Zhang Li, chairman of the academic committee of the conference, read out the outstanding research paper award 2014-2019, the outstanding work award 2014-2019, and the excellent conference paper award of this conference Chairman Zhang Wei announced the list of winners of the “Human Factors and Ergonomics” Industry-University Collaborative Education Project of the Ministry of Education in 2017, and invited a number of academic leaders and guests at home and abroad to present honorary certificates to the winners. Finally, the launching ceremony of the HFE AWARD National Human Factors and Ergonomics Innovation Contest was held.

In the keynote speech of the conference, 12 famous scholars at home and abroad, including Professor Waldemar Karwowski of the University of Central Florida, Professor Chen Haishou of the City University of Hong Kong, and Professor Rosemary Seva of the - De La Salle University of the Philippines, made presentations on human factors and ergonomics. Frontier research fields related to science have aroused enthusiastic discussion and positive response from the participating scholars. In the reports of each branch venue, the academic atmosphere was enthusiastic, and the participating scholars enthusiastically spoke and actively communicated. In addition, the conference also held the first exchange meeting with editors of ergonomic journals at home and abroad. The editors (deputy editors) from domestic and foreign journals such as Ergonomics, International Journal of Industrial Ergonomics and other scholars had face-to-face exchanges and questions and answers. During the exchange meeting, the participating scholars actively asked questions, communicated in depth with the editors, and spoke freely. The exchange meeting was warmly welcomed by everyone and achieved good results.

On the morning of September 1, a special report on ergonomics in the three places across the Taiwan Straits was organized. Under the joint initiative of the three directors (or representatives) of the three ergonomics institutes, the Chinese Association for Ergonomics (CAES) director (or representative) convened the first meeting of the Board of Directors in 2019. The meeting heard the work report of the Secretary-General of CAES, Professor Lin Jiuxiang, and the financial report of CAES Chief Financial Officer, Professor Zheng Shuji, and analyzed the development of CAES in recent years, and decided to carry out the general election.

After the nominations and elections of the three places' associations, the second board of directors of CAES and three leaders were generated (Professor Wang Mingyang is the chairman of CAES, Professor Zhou Ronggang is the secretary-general of CAES, and Professor Zhengshuji is the chief financial officer of CAES.) The directors are Prof. Zhang.
Wei, Prof. Wu Xinjie and Prof. Ke Jialun, chairmen of the Ergonomics Society of the Three Lands, and Prof. Yi Shuping, Prof. Lu Junming, and Prof. Zhang Yan.

During the academic conference (September 1-4), the 4th Young Scholars Study of "Excellent Ergonomics Research Project" sponsored and sponsored by Beijing Jinfa Technology Co., Ltd. and Chinese Ergonomics Society was also held. It included capacity-building training and academic seminars. Chairman Zhang Wei presided over the opening ceremony and delivered a speech. In the next three days, a total of 9 human factors and ergonomics experts at home and abroad gave lectures, covering topics related to human factors and ergonomics, article writing, journal selection, and more. Finally, the teaching experts reviewed the project research applications submitted by the young scholars. According to the results of the review, 11 young scholars from a total of 5 teams received the CES Fund (Ergonomics Institute-Jinfa Excellent Young Scholars Joint Research Fund CES -Kingfar Excellent Young Scholar Joint Research Funding). Mr. Zhao Qichao, deputy secretary-general of the society and chairman of Beijing Jinfa Technology Co., Ltd., announced the list of CES fund recipients and issued a fund sponsorship certificate to each student.
